Appl. No. 09/531,818   Atty. Docket No. 13DV13576

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

Claim 1 (currently amended).   A method for distributing information concerning recommended steps for performing a process, comprising:

using providing a computer network for communicating digital data between at least two locations;

first conveying, using said computer network, to receive at a first location a request for a recommended process sequence of steps for performing a process, said request originating at a first location and directed to a second location that is remote from said first location;

causing an input screen to be displayed at said second location to collect information about said recommended process sequence of steps for performing said process:

processing, at said first second location, said request to produce said recommended process sequence of steps for performing said process; and

second conveying, in response to said request and using said computer network to convey from said first location to said second location, a response that includes said recommended process sequence of steps for performing said process, said response originating at said second location and directed to said first location.

Claim 2 (original). The method as claimed in Claim 1, wherein:

said processing includes using a decision tree for use in determining said recommended process sequence of steps.

Claim 3 (original). The method as claimed in Claim 2, wherein:

- 3 -

Appl. No. 09/531,818   Atty. Docket No. 13DV13576

said decision tree includes a decision node that, based upon a decision, is used determine if a first sequence of steps or a second sequence of steps is part of said recommended process sequence of steps.

Claim 4 (original). The method as claimed in Claim 1, wherein:

said processing includes using a notes tree for providing error proofing directions for said recommended process sequence of steps in said response.

Claim 5 (original). The method as claimed in Claim 1, wherein:

said processing includes using a notes tree for providing best practices directions for said recommended process sequence of steps in said response.

Claim 6 (original). The method as claimed in Claim 1, wherein:

said processing includes using a tree structure that is in the form a spreadsheet.

Claim 7 (original). The method as claimed in Claim 1, wherein:

said processing includes calculating a value associated with a step of said recommended process sequence of steps.

Claim 8 (original). The method as claimed in Claim 7, wherein:

said calculating includes using a data file.

Claim 9 (original). The method as claimed in Claim 7, wherein:

said calculating includes using a data file that is in the form of a spreadsheet.

Claim 10 (original). A method for distributing information concerning recommended steps for performing a process, comprising:

providing a computer network for communicating digital data between at least two locations;

- 4 -

Appl. No. 09/531,818   Atty. Docket No. 13DV13576

first conveying, using said computer network, a request for a recommended process sequence of steps for performing a process, said request having originated at a first location and being directed to a second location; and

second conveying, in response to said request and using said computer network, a response that includes said recommended process sequence of steps for performing said process, said response having originated at said second location and being directed to said first location.

Claim 11 (original). The method as claimed in Claim 10, wherein:
said network includes the World Wide Web.

Claim 12 (original). The method as claimed in Claim 10, wherein:
said providing includes providing one of the following: a local area network and a wide area network.

Claim 13 (original). The method as claimed in Claim 10, wherein:
said first conveying includes conveying said request in the form of a spreadsheet.

Claim 14 (original). The method as claimed in Claim 10, wherein:
said second conveying includes conveying said response in the form of a spreadsheet.

Claim 15 (original). The method as claimed in Claim 10, wherein:
said second conveying includes conveying said recommended process sequence of steps in the form of a spreadsheet.

Claim 16 (original). A method for providing information concerning recommended steps for performing a process, comprising the steps of:

providing, in a computer memory, a decision tree having at least two possible sequences of steps for performing a process;

- 5 -

Appl. No. 09/531,818   Atty. Docket No. 13DV13576

receiving a request, originating from a computer input device, for a recommended process sequence of steps for performing said process, said request including information for use in determining a recommended process sequence of steps from said at least two possible sequences in said decision tree;

using, in a digital computer, said request and said decision tree to determine a recommended process sequence of steps for performing said process of a product; and

transmitting said recommended process sequence of steps towards a computer output device.

Claim 17 (original).   The method as claimed in Claim 16, further comprising:

permitting an expert to modify said decision tree.

Claim 18 (original).   The method as claimed in Claim 16, further comprising:

receiving said decision tree from a remote location relative to said digital computer.

Claim 19 (original). The method as claimed in Claim 16, wherein:

said step of receiving includes conveying said request over a computer network.

Claim 20 (original). The method as claimed in Claim 16, wherein:

said step of transmitting includes conveying said recommended process sequence of steps over a computer network.
